- **Programming Languages**
  Python , Java , SQL
- **Team & Leadership Skills**
- **Tools & Technologies**
  Git/GitHub, Jupyter Notebook, VS Code, Google Colab, MySQL
- **Communication skills.**

WARSHA NETHMINI

A driven and ambitious 1st-year Data Science undergraduate at SLTC, possessing a keen interest in transforming raw data into actionable insights. I am actively dedicating my early academic years to mastering programming, statistical modeling, and logical reasoning. Beyond technical skills, I am developing strong adaptability and teamwork capabilities. I am highly motivated to step out of my comfort zone through hands-on projects, industry mentorships, and practical learning opportunities to build a solid launchpad for a successful career in the tech ecosystem.

PROJECTS

- **Personal Portfolio Website**

  Designed and developed a fully responsive personal portfolio website from scratch using HTML5, CSS3, and JavaScript to showcase academic achievements and data science projects. Implemented clean layouts and responsive design principles to ensure a seamless UI/UX across all devices, while utilizing Git and GitHub for version control and deployment.
